
Study Defect States Silicon Carbide

study of nano-crystalline silicon deposited by vhf-pe cvd ... - study of nano-crystalline silicon deposited by vhf-pe cvd for solar cell devices puneet sharma ... defect states which were responsible for carrier capture, and the donor density. the diffusion ... crystalline silicon can be attributed to the light scattering at the grain boundaries as **ab initio study of the split silicon-vacancy defect in ...** - ab initio study of the split silicon-vacancy defect in diamond: electronic structure and related properties adam gali^{1,2} * and jeronimo r. maze³ † 1wigner research centre for physics, hungarian academy of sciences, p.o. box 49, h-1525, budapest, hungary

study of the effects of the antisite related defects in ... - study of the effects of the antisite related defects in silicon dioxide of metal-oxide-semiconductor structure on the gate leakage current ling-feng mao*, zi-ou wang*, ming-zhen xu**, and chang-hua tan** abstract—the effects of the antisite related defects on the electronic structure of silica and the gate leakage **study of transformation of defect states in gan- and sic ...** - study of transformation of defect states in gan- and sic-based materials and devices lorenzo rigutti to cite this version: lorenzo rigutti. study of transformation of defect states in gan- and sic-based materials and devices. condensed matter [cond-mat]. università degli studi di bologna, 2006. english. **employing constant photocurrent method for the study of ...** - subgap defect states together with an estimate of the bandgap of silicon films prepared at various crystalline fractions have also been estimated. the density of localized tail states is found to fall exponentially toward the gap with band tail width of ... employing constant photocurrent method for the study of defects in silicon thin films ... **theoretical study of defects in silicon carbide and at the ...** - it is of high importance to study the role of these defects by electronic structure calculations, that can provide specific defect models for experiments in order to identify the unknown defect centers. in my ph.d. work i studied defects formed by common n- and p-type dopants of sic as well as clusters of carbon and silicon self-interstitials. **study of transport properties and defect density profile ...** - study of transport properties and defect density profile in nanocrystalline silicon germanium devices by siva konduri a thesis submitted to the graduate faculty in partial fulfillment of the requirements for the degree of doctor of philosophy major: electrical engineering program of study committee: vikram dalal, major professor rana biswas **native point defects in yttria as a high-dielectric ...** - native point defects in yttria as a high-dielectric-constant gate oxide material: a first-principles study j.x. zheng¹, g. ceder^{1,2}, t. maxisch^{2,w.k. chim^{1,3} and w.k. choi^{1,3}} 1 singapore-mit alliance, 4 engineering drive 3, singapore 117576 2 massachusetts institute of technology, 77 massachusetts avenue, cambridge, ma 02139-66307, usa 3 department of electrical & computer engineering ... **low temperature photoluminescence study on defect centers ...** - low temperature photoluminescence study on defect centers in silicon carbide . fei yan, phd . university of pittsburgh, 2009. this thesis reports the study of several intrinsic defect centers in sic, mainly by optical **photoluminescence study of a beryllium related defect in ...** - a photoluminescence study of a beryllium related defect in silicon a thesis for the degree of doctor of philosophy presented to dublin city university by siobhan elizabeth daly b. research supervisor dr. martin o. henry school of physical sciences dublin city university september 1994 **the study of silicon nanowires produced by solid phase ...** - the study of silicon nanowires produced by solid phase crystallization a thesis in engineering science and mechanics by ... in this thesis study, a general synthetic procedure of si nanowires combining electron ... surface defect states and / or intragranular defect states might exist in one dimensional **xps study of palladium sensitized nano porous silicon thin ...** - states on porous silicon, arising due to its nano structure, disturbs the stability of the material. our study indicates that pd dispersed on the ps surface helps in two ways. the oxidized ps contains less defect states and hence the surface is **lithium-ion drifting: application to the study of point ...** - suggests that the silicon point defect activities are considerably higher than those commonly accepted, but are in reasonable agreement with values recently proposed. these results demonstrate the utility of lr⁺ drifting in the study of silicon point defect properties in p-type fz crystals. **excited states of defect linear arrays in silicon: a rst ...** - excited states of defect linear arrays in silicon: a rst-principles study based on hydrogen cluster analogues w. wu, p. t. greenland, and a. j. fisher ucl department of physics and astronomy and london centre for nanotechnology, university college london, gower street, london wc1e 6bt nguyen h. le, s. chick, and b. n. murdin **imaging study of multi-crystalline silicon wafers ...** - imaging study of multi-crystalline silicon wafers throughout the manufacturing process preprint . steve johnston, fei yan, ... this report was prepared as an account of work sponsored by an agency of the united states government. ... for cast multi-crystalline silicon ingots, the defect structure
